

# CBSG® Pre/Post Survey

September 2021

Thank you for your support in completing the *CBSG® Program* Classroom Connection Universal Evaluation study: we cannot do this without you!

Enclosed are the current pretest and posttest surveys to help us measure the impact of *the CBSG® Program*. We have designed separate questionnaires for children in 4<sup>th</sup>-5<sup>th</sup> grade and youth in 6<sup>th</sup>-12<sup>th</sup> grade. While the questions are identical, the response options are adapted in some places to match each age group's expected reading level.

The enclosed 25 questions in each survey come from 4 separate surveys assessing children and youths' agency, perceived pathways to the future, attitudes toward drug and alcohol use, conduct problems, rebellious behavior, efficacy toward making healthy choices, sense of belonging with others, presence of a caring adult, and acceptance of (non)control. Different sets of questions tap into each of these concepts: we explain how to calculate and report a score for each on the Scoring Instructions page.

It is important that the person overseeing the survey questions is not the person who delivered the *CBSG® Program* (if applicable) to help ensure honest and unbiased responses. Please assure all participants that their responses are private for the same reason.
